PUBLIC SUPPORT PETITION

Family, Friends and Community Members | Individual Declaration

TO: Virginia state and federal public officials and independent disability-rights advocates.

I voluntarily request independent review and appropriate protections for people receiving psychiatric care at Western State Hospital and other Virginia state psychiatric facilities. I support fair, evidence-based oversight and accountability without presuming misconduct by any particular person.

REQUESTED PROTECTIONS AND ACTIONS:

1. Independent review of credible patient-safety complaints and systemic reporting failures.
2. Accessible, independent channels to report suspected abuse, neglect, coercion or retaliation.
3. Protections against retaliation for patients, staff, witnesses and good-faith complainants.
4. Timely preservation and lawful review of relevant records and available evidence.
5. Fair, impartial investigation and due process before any disciplinary conclusions.
6. Appropriate referrals to licensing, regulatory, law-enforcement or other competent authorities.
7. Transparent written acknowledgments, referrals and lawful public reporting of outcomes.
8. Review of staffing, training, patient-rights access and legislative or policy improvements.
9. Consideration of legally authorized investigative techniques, including polygraphs only where lawful and appropriate; no automatic or compulsory testing is asserted.

This petition seeks investigation and lawful reform, not collective punishment. Signing is voluntary.

Do not include patient diagnoses, confidential treatment records or allegations about identifiable people in a general support email.

INDIVIDUAL PUBLIC DECLARATION & SIGNATURE

I have read the public support petition and voluntarily support all nine requested measures, subject to applicable law and due process. I am acting in my individual capacity. My signature does not assert personal knowledge of every concern and does not accuse a particular person of wrongdoing.

Complete the fields below, save a private copy and attach it to an email you send yourself. A typed signature is an electronic indication of intent, not a cryptographically certified signature.
